Nikul Suthar

Cybersecurity Enthusiast | OSINT Analyst

Ahmedabad, Gujarat | Nikulsuthar263@gmail.com

Summary

I'm Nikul Suthar, a B.Tech Cybersecurity student with a deep interest in Cybersecurity, OSINT, and real-world threat detection. Instead of just learning tools, I focus on understanding how cyber problems work — from social engineering scams to data breaches — and designing solutions that create real impact. I've built awareness tools like the Fake Job Offer Analyzer that help people detect scam patterns using public data and logic-driven analysis — even without advanced coding.

Skills

- **Cybersecurity Tools:** Burp Suite, Metasploit, Hydra, Medusa, Spiderfoot, Nmap
- **OSINT & Recon:** Shodan, WhatsMyName, Recon-ng, Google Dorking
- **Programming/Tech:** HTML, CSS, MySQL, Oracle, Arduino IDE
- **Others:** Networking, GitHub, VS Code, Canva, Figma, SketchUp, AutoCAD

Projects

- **Fake Job Offer Analyzer:** OSINT tool to detect scam job offers using public data.
- **Cybercrime Reporting Help Tool:** Guides users on fraud reporting, FIR steps, helpline 1930, and cyber cell contacts.

Education

- **B.Tech in Cybersecurity** – Indus University, Ahmedabad (2024–2028)
- **Higher Secondary (12th)** – Shree Swaminarayan International School
- **Secondary (10th)** – Shree Swaminarayan International School

Certifications

- ISEA Cyber Security Pledge
- CISCO – Ethical Hacker
- CISCO – Introduction to Cybersecurity
- AIG – Shield Up Simulation
- Deloitte – Cyber Simulation
- TATA – Cyber Analyst
- TATA – Data Visualisation
- MasterCard – Cybersecurity
